EVERY SecuraStock unit

FASTER, EASIER SOLUTION - NOW WITH SCALES!

Badge in, take your item, and go! The fastest vending experience available. Or open a locker on your mobile device or smartphone with our **SecuraSmart App**. No need to waste time scrolling through inventory on a computer screen. Traditional item scanning also available.

BEST VALUE-ADD SOLUTION

Our lockers have a very low vending cost per SKU, which delivers a strong ROI for distributors and significant savings for the end-user. Dispensing goods and durables from a single machine saves you time and money.

A MORE SECURE LOCKER SYSTEM

Our motion-tracking cameras give SecuraLocker and extra layer of security; users can load the lockers with consumable items, knowing they are protected from theft.

ASSET TRACKING IS A SNAP

Secure and track expensive items like laptops, power tools, gauges, and batteries. Power is supplied to keep battery powered items fully charged.
