

SECURAPORT

The Future is Here: Convert your Conex or Over the Road Trailer into a Secure, Managed Storeroom on the Go

DISTRIBUTOR

- ▶ Theft
- ▶ Shrinkage
- ▶ Damaged inventory
- ▶ Ineffective stocking
- ▶ Inefficient restocking
- ▶ Inaccurate inventory counts
- ▶ Missed opportunities to maximize through-put
- ▶ Randomly strewn items

END-USER

- ▶ Insufficient control over indirect materials expenses
- ▶ Spotty product availability, especially when needed unexpectedly
- ▶ Unnecessary downtime with task completion delays
- ▶ Uncontrolled or inadequate end-user access

As a distributor, you know the challenges associated with supplying in a mobile environment. However, the impact on your and your customers' bottom lines may be even bigger than you think.

The National Equipment Register estimates that the annual cost of a single instance of equipment theft – a common occurrence when conex and other trailers are unsecured – is an astounding \$30,000. Are you willing to take the risk?

TRANSFORMING THE WAY INVENTORY IS DONE

Secure, mobile inventory management at your fingertips and on the job site:

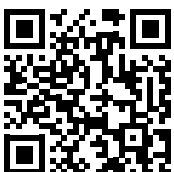

- Simple install allows immediate use.
- Full scale, real time remote access empowering proactive inventory management, reducing the production delays and inefficiencies caused by shortages.
- 24/7/365 system eliminates downtime.
- Check in/out capability ensures constant tracking of high value, critical durable goods.
- Easy to use end-user interface ensuring job site efficiency.
- Mobile, onsite sku availability maximizes end-user capacity and improves safety
- Affordable, state of the art security features developed to eliminate shrinkage, theft, and damaged inventory without requiring you to pay for more than you need.

SECURITY SecuraPort effortlessly transforms your standard container of any length into a fully secured, automated inventory management storeroom. With a controlled access entry system consisting of a universal custom container fit gated egress, an electromagnetic lock, keypad, and badge reader for any man door, SecuraPort verifies that all transactions are secure. In addition, 4 – 16 vandal-proof cameras run 24/7, ensuring that all interactions are recorded and easily accessible for viewing.

COST REDUCTION Our solution also removes paper sign out sheets and eliminates the need for a full-time attendant without compromising productivity.

COMPREHENSIVE INVENTORY MANAGEMENT SecuraPort is not limited by number of skus, users, or distributors, so volume and diversity of durable and consumable inventory is limited only by the length of the container, enabling robust inventory management and access for you and your customers.

SUPERIOR VALUE The lowest cost option on the market, SecuraPort provides superior value by removing the need for a full-time attendant, while also providing a best in the business, 3-year warranty.
